

**ICAR – RVS - Krishi Vigyan Kendra  
Tirunelveli District  
Frontline Demonstration (FLD)**

S. No.	Crop/ enterprise	Prioritized problem	Technology to be demonstrated	No. of Demo
1	Paddy	Farmers getting low yield due to using existing low yielding varieties	Demonstration of TNAU paddy variety Co 52	10
2	Blackgram	Heavy flower shedding. Poor pod setting Low yield	Demonstration of Foliar Nutrition to enhance yield in Blackgram	10
3	Finger millet	Farmers getting low yield due to using existing low yielding varieties	Demonstration of ragi variety Co 15	10
4	Mango	Lack of awareness of recommended dosage of micronutrients for mango	Integrated Crop Management of Mango	10
5	Onion	Low income and poor yield due to using existing small onion variety. Lack of awareness in seed production in small onion	Demonstration of Co (On) 5 onion in Tirunelveli district	10
6	Brinjal	Indiscriminate use of insecticide. Yield losses due to brinjal shoot and fruit borer	Demonstration of Biological Control For Brinjal Shoot and Fruit Borer	10
7	Chillies	Low yield due to pest incidence	Demonstration of Bio intensive IPM practices in chillies	10
8	Brinjal	Lack of knowledge of value addition. To improve the nutritional status.	Demonstration of Value Addition in Brinjal	10
9	Tamarind	Lack of knowledge about fruit processing machineries. Lack of awareness on drudgery reduction.	Demonstration of Tamarind Huller	10
10	Dairy	20 % of the infertility-Repeat breeding Poor conception rate and increased intercalving period. Lack of awareness on breeding management	Demonstration of EVM for treatment of Repeat breeding in dairy animals	10

11		Poor nutrition management in dairy cows. Lack of awareness on mixed fodder	Demonstration of mixed fodder unit	10
